Foreword

As we enter into another daylily season made possible by the wonderful response to our 1956 list, we submit our 1957 Price List with deep appreciation for the many kind and complimentary unsolicited expressions from hundreds of satisfied customers from all over the United States. We are very grateful for the many letters received during 1956 praising the quality of our plants, and their condition on arrival at destination, as well as our generosity in including quality bonus plants.

We have added many fine varieties to our collection, and also have been very fortunate in acquiring many new introductions from some of the leading Hybridizers in the country. We are very proud of our 1957 collection and we sincerely believe it to be as complete a list as you will find anywhere.

In August 1956 we sold our 100 acre nursery property on U. S. 90 including all nursery stock except our daylilies. We are now devoting our entire nursery activities to the growing of modern and top variety daylilies. Our new location is situated at 304 Breaux Bridge Ave., within the city limits, at which location we first started our nursery business some 17 years ago.

Our garden is opened to visitors the year round, and we hope many of you will have the opportunity to visit our garden, where you can compare the creations of the top Hybridizers of all times.

In conclusion, we wish to express our heartfelt thanks to our many friends and customers. Hoping to see you in Tulsa and again in Houston in 1958.

Sincerely,

C. G. & Louise Simon

MAKE YOUR OWN COLLECTIONS

You will find under this group some of the newer and better varieties on which you can save money by making your own collections.

BARGAIN COLLECTIONS

You will find listed under Bargain Collections many standard and proven daylilies worth several times the price they are listed at. We have a surplus stock of these varieties which is the reason we are offering them at sacrificed prices.

JOIN THE HEMEROCALLIS SOCIETY

Anyone interested in daylilies should join the American Hemerocallis Society. This organization is devoted to the advancement of daylilies. The best advice from the leading hybridizers and experienced growers of daylilies is made available to the members in the form of printed bulletins issued from time to time in an attractive and informative year book.

The dues are \$3.50 per year and should be mailed to Mrs. Daisy L. Ferrick, Secretary, 416 Arter Ave., Topeka, Kansas. If you wish to send us your dues with an order, we will take care of it for you, and will send a bonus of plants with your shipment.

1956 POPULARITY POLL

We are listing in this price list the 100 daylilies, voted as the most popular by members of the Hemerocallis Society in 1956 Popularity Poll. You will find these varieties listed for sale in this price list, identified by asterisk preceeding varieties.

STOCK LIMITED

When ordering daylilies listed as supply limited, we suggest you give us a second choice, otherwise, we may have to return your remittance.

HARD TO GET ITEMS
